

WATCH US GROW

4.5 Years to 5 Years

Every child grows and learns new things at his or her own pace. Children may vary by as much as 6 months in some things they are able to do. If you have any concerns about your child's development, you should speak with our Director.

Children can repeat numbers, match things that are related, pick out which group has more, can share, can take turns, can help serve self, can clean up spills, can dress with no help, can swing self on swing, can hop on each foot, can kick a large ball and connect dots on paper. Children can also name coins, can talk with other, can tell what is the same or different, can tell their birthday, can name two feelings – happy or sad – can tell what is real or make-believe, can put on a shirt, knows front from back, can brush their teeth, can catch a ball, can march in time to music and can draw a person (stick figure).

Our Vision

Our staff members are trained to be recognized leaders in providing TLC and extraordinary educational programs. We pride ourselves on our distinctive blend of fun and learning in a safe and nurturing environment.

We as teachers at this stage will reinforce what the child has learned by reviewing on a daily basis. Introduce new art and other activities, continue reviewing colors, numbers, sight words and the alphabet. Do worksheets that pertain to their age groups. Introduce simple math ($1 + 1 = 2$).
