

## **WATCH US GROW**

### **6 Months to 12 Months**

Every child grows and learns new things at his or her own pace. Children may vary by as much as 6 months in some things they are able to do. If you have any concerns about your child's development, you should speak with our Director.

Children can roll a ball, will stop briefly if told no, can imitate sounds and people, wave bye-bye, can use a cup with help, can feed themselves with their fingers, can crawl, can pull themselves to stand up, can point at things, enjoys looking at picture books, understands a few words like 'mama' and 'dada', enjoys peek-a-boo, will begin to stand alone, can crawl fast, can take a few steps and throw a ball.

#### **Our Vision**

Our staff members are trained to be recognized leaders in providing TLC and extraordinary educational programs. We pride ourselves on our distinctive blend of fun and learning in a safe and nurturing environment.

At this stage of your child's development we will roll a ball to them which will help to develop motor skills, play peek-a-boo and make sure to wave bye-bye each day. We will also teach them how to use a cup and eat properly. We will play games and encourage them to laugh, give hugs, take steps and explore the world around them.
